Subject: S418 operator specifications

Dear FAAC customers:

To better clarify the performances of our S418 electromechanical operator we have created a table that lists the usage limits of the S418 for different combinations of gate weight and length.

Gate Length	Gate Weight
10 ft (3.0 m)	up to 720 lb (326 kg)
12 ft (3.7 m)	up to 500 lb (227 kg)
14 ft (4.3 m)	up to 370 lb (168 kg)
16 ft (4.9 m)	up to 280 lb (127 kg)

We will add this table to the operator's specifications sheet and other documentation.

If you have any questions please feel free to contact your sales representative or the technical department.

Sincerely,

Stefano Piana

A handwritten signature in black ink that reads 'Stefano Piana'.
